

As EU Centre, we are planning to submit a project to the “2010 Transfer of Innovation (TOI)” Grants within the Center for EU Education and Youth Programs-Leonardo framework.

The project is titled as *Improvement of Project and Fund Management Skills in the New Member and Pre-Accession Countries to the EU*. It aims to support public and private sector personnel and SMEs to deliver and manage EU funds effectively while adapting their organizations to the new policies of the EU.

We are planning to develop modules for the targets groups and use distance training methods for target groups.

We would like to develop partnership with countries that are candidates or newly member to the EU and are open to partnerships to the consortium. We would like to develop co-operation with university, civil society or private sector organizations as well. It is expected from the partner institution to implement the activities of the project in their countries and the partner will have a certain budget and receive funds to conduct the project activities as well.

The deadline for the proposal submission is 26th of February 2010. Detailed information about the EU Centre and of the project will be supplied upon your interest.
